

The grass is greener under LED lights

Onslow Park Tennis Club is holding a public open day this Saturday, October 22.

The club is passionate about tennis and under the care of greenkeeper Greg O'Dea the grass courts are now considered some of the best in Perth.

Earlier this year the club installed LED lights to four of the seven grass courts at its own cost to allow night-time grass court play.

The lights allow the club to offer the option to play on grass courts in the cooler summer evenings and after work.

The club has also had a major facelift with the recent completion of new fencing to the courts jointly funded by the club and the City of Subiaco.

Onslow Park Tennis Club is located in Rosalie Park next to the primary school on Onslow Road with seven grass courts and four hard courts.

Award-winning coaching, fitness and recreational programs are available through Tennis Factory which has been operating at the club for eleven years.

Head coach Matt Bull and the Tennis Factory team won the 2022 Club Coaching Excellence Award at the recent Tennis West Gala Awards Night.

The club will be open this Saturday from 2pm.

All ages are welcome to join existing members and coaches in a friendly afternoon of social tennis, coaching and activities.

Organised social doubles play will commence at 2pm with half hour sets, and there will be a break for tea at 3.30pm to officially declare the new season open.

Information is available on the club's website at onslowparktennisclub.com <http://onslowparktennisclub.com>.

Onslow Park Tennis Club's LED lights allow players to enjoy summer evenings on the grass courts. The club is holding an open day this Saturday, October 22 to kickstart the tennis season.
